GRADING TERMS: If you're tired of receiving overgraded dollars, read this:
MS-60 -- Strictly brilliant Unc, full mint frost and no rubbing, as taken from original mint rolls. These coins will have normal bagmarks and normal strikes for the date. (excessive bagmarks or horrible strikes will be noted separately) These are **NOT** sliders, or even ugly BU's. In fact, some call them gem, choice, select or whatever.
MS-65 -- Choice brilliant Unc, well struck with minimum bagmarks. These are normally called gems on today's market. Generally our MS-65's will please anyone, and are comparable to or better than most dealers' MS-70 coins!
MS-70 -- True GEM BU, virtually perfect, fully struck coins with essentially **NO** bagmarks. Many dates simply do not exist in true MS-70 condition (although you see so-called MS-70's of these dates offered for sale quite often.)

Our Ch. AU coins usually have 100% full mint lustre and full breast feathers on eagle. Many dealers call them MS-65's! We have seen dealers describe coins as BU that we call EF-AU!! Our prices on dollars are extremely reasonable when grading is taken into account.

INVESTMENT PACKAGES OF RARE COINS

We are often asked for our recommendations as to which coins we feel offer the best possible investment potential. Unfortunately, we can never give a specific answer to such a general question, since so many factors concerning individual situations enter into the answer.

For example, many coins which we feel offer excellent long-term (say 10-12 years) potential, offer no real possibilities at all to those wishing to keep their coin investments for only 2 or 3 years. In many cases, an investor is willing to sacrifice probable greater percentage gain for greater liquidity. (Especially when he is not sure exactly when he will wish to dispose of his investments.) Some investors are interested in highly speculative items (such as bullion gold, BU rolls, etc.) that offer quick profits (or quick losses) and put them completely at the mercy of various uncontrollable market factors. Others prefer investing (usually over a long period of time) in rarer items---items such as choice colonials, rare gold, choice type material, rare date silver and copper coins. As far as I know, any collector or investor that has bought such items from a reputable, established dealer, and held them for a minimum of 5-10 years, has always been able to sell his holdings at a substantial profit.

This is not to say that there are not conditions under which great short-term profits can be made. Collectors who bought (as one example) nice BU 1883-NC nickels (available less than a year ago at less than \$12.00 per coin---and highly recommended by us as an investment at that time) can realize better than a 300% profit on their investment. However, this is quite an exception to the rule, and one should not expect to do this well (of course) on all of one's rare coin investments.

However, I do not think it is unfair to expect an investment in properly selected rare U.S. coins to double in value over a 5 year period (or to be worth 4-5 times the price paid for them in 10 years.) We try to deal almost exclusively in the type of coins that we feel will appreciate well over the long run. There are, of course, exceptions---we do have some (very few) items listed in our catalog which are speculative---but if an investor bought every coin in our catalog (or a large enough random selection) we are confident that he would have an excellent long-term investment. In addition, he would have the pride of ownership that comes from owning mostly coins that are truly scarce, and choice, rather than common items that exist in enormous quantities, and that are in demand only by speculators and beginners---not by seasoned numismatists. (However this is merely an aside. Investment is still of primary concern here.)

We do have certain items which we recommend as investments for specific periods of time. (For example: we are recommending the purchase of most VF-EF-AU type coins for what we feel will be an excellent gain over the next 1 1/2 to 3 years...this, due to the fact that many type coins in uncirculated condition have recently risen in price so quickly that they are now out of the range affordable by many collectors. We also now consider rare date gold coins to be the best general 5-7 year investment.) However, there are always going to be specific items within these general groupings that we feel are better buys than others.

If you would like to make an investment in rare U.S. coins, and are willing to place your self in our hands, we will be happy to make you up an investment package which we feel will be best suited to your needs.

We will do our absolute best to give you coins that will offer you the best possible appreciation over the period of time during which you plan to hold the coins. In addition, we can offer you advice as to the best possible methods of disposing of your coins when it becomes time to sell. We will try to diversify your package in such a way as to give you a fairly secure position. And although we do not guarantee you will get rich buying coins this way (though some have) we do have the experience, knowledge of rarity and condition, and awareness of market conditions, to just about guarantee that unless you are an expert on the rare coin market you will have a much better chance of profiting from such an investment, than if you selected the coins yourself from other coin dealers (or even from us.)

In addition, you will be dealing with New England Rare Coin Galleries, a highly respected name in the industry, and you will have this assurance of fair, consistent value and proper grading and attribution.

If this type of arrangement sounds like what you are looking for, fill out the order form on the following page. Then mail it in to us with your check. We will then assemble a group of coins which we feel are best suited to your particular investment picture. Each coin will be individually invoiced, and any coin or coins may be returned within 10 days for a full refund (for any reason or no reason at all.)

Your satisfaction is completely guaranteed.

Please answer these questions as specifically as possible.

How long do you expect to be holding these coins? If you're not sure, please give approximate chances of each possibility--example: "I will probably hold for 10-12 years, but there is about a 20% chance I will need to sell in 4 years." (Note: We do not recommend investing in rare coins unless there is a good chance you'll be holding them for at least 2 1/2-3 years.) _____

Do you have any preferences regarding intrinsic values of coins, specific type of items that you prefer, etc.? (Note: We prefer that you leave these considerations up to us, however we will accomodate any wishes regarding specific interests you may have.) _____

How do you intend to dispose of these coins when it becomes time to sell? Would you like us to give you our recommendations? _____

Do you know if you will be investing more money in rare coins using this plan in the future? If so, approximately when and in what amounts? (This will help us plan which of the coins that fit into your picture to sell you now and which to plan on selling you later, as we feel certain coins may now be underpriced and others overpriced on a short-term basis although both may be underpriced on a longer-term basis.) _____

to the public, a unique opportunity

The Actual U.S. Mint

COIN DIES

used in the production of the 1968-S Proof Sets

THE DIES...

New England Rare Coin Galleries is proud to offer to you our few remaining coin dies, dies actually used in the minting of coinage for proof sets in 1968.

LOOKING BACK...

1968, a short five years ago, was an exciting year for numismatics. After a three year dry spell, it was announced that proof sets, sets of coins made expressly for collectors, would again be minted. But this year history was to be made with the announcement that the proof sets were to be minted, NOT at the traditional Philadelphia mint, but at the newly revitalized mint in San Francisco; and that they would bear the "S" mintmark!

HISTORY...

The first proof set ever issued from any branch mint, breaking the 110 year Philadelphia mint tradition; the first time U.S. proof sets were to bear any mintmarks... and the first, and LAST time in post-1900 numismatics that the actual historical dies were allowed out of the mint!

COLLECTOR INTEREST...

These dies are fascinating pieces of numismatic history, and because they have been defaced at the mint before their release, they are completely legal to own. Although the dies have been defaced, many still retain partial effigys of familiar faces and mottos still in use on our coinage today.

Each die has been individually serial marked at the mint, in addition, each has the "P" stamped into it indicating use in making proof coinage, and the letter "S" incused into each die to indicate its use in the San Francisco mint.

NEVER AGAIN...

New England Rare Coin Galleries is the only firm from whom you can now purchase these dies. Once our supply is exhausted, there will be no more (the government now has stringent controls to see that no more coin dies leave the mint), no more will ever be released, not next year...not ever!

These dies are both unique and fascinating; unique as representatives of the first year of operation of the San Francisco mint since 1955; fascinating to all numismatists, or anyone for that matter! A tremendous opportunity to obtain a wonderful conversation piece as well as a welcomed addition to any educational display. The laws of rising demand and absolutely limited supply make these a wonderful potential investment item.

UNIQUE OFFERING...

Our supply is limited, but while we still have a few available we make the following offering:

PRICE: \$29.00 per coin die*
 \$225.00 per complete ten die set. Sets of ten dies include one reverse and one obverse die of each denomination minted (cent, nickel, dime, quarter and half)

*On individual coin die orders, you may specify preferred denomination (except half dollar). Even though denomination is of our choice, we will do our utmost to see you get your preference. Half Dollar coin dies are available at \$45.00 each.

At this time, we must limit orders to no more than five (5) dies or sets per customer, dealer or investor.

To make this offer even more irresistible, we shall include free of charge a 1968-S proof set with each order, two proof sets with each order for a ten die set.

This may very well be our final offering of these unique dies, our offer is unique, as is the opportunity for you to participate in this offering. We urge you to send your order now, while these dies are still available; as is your chance to participate in acquiring a true piece of numismatic history.

MONEY -BACK GUARANTEE

If, for any reason you are not satisfied, you may return the dies within 10 days for a full instant refund.
